

Banking Solutions

Online Banking

Online banking is available when you are — and where you are!

Through our secure online banking system, you have access to the features and services your business needs most — 24 hours a day, seven days a week. Plus, with mobile banking, you can monitor your business' cash flow on the go.

Your online banking users can be provided either view-only or full-access privileges. View-only users can see transaction histories and account summaries. Full-access users can use all features of the site, including performing transactions (bill payments, transfers).

Online Banking for Small Business

Online banking provides a simple system for managing your business' financial needs.

- View real-time account information and up to 18 months of transaction

history, including cheque images, service charge summaries and statements

- Create one-time, scheduled or recurring payments or transfers
- Send and receive Interac e-Transfers (available to one-to-sign businesses only)
- Remit CRA payments
- Initiate stop payments
- Link to your Servus Credit Union MasterCard account
- Download transactions into accounting software
- Access mobile banking
- Report a lost or stolen Member Card debit card

Mobile Banking for Small Business

Mobile banking is a lighter version of our online service, making it the perfect way to keep on top of your finances whether you're checking in

from the conference room or the coffee shop.

- Check account balances
- View transaction histories
- Pay bills
- Transfer funds
- Send/receive Interac e-Transfers (available to one-to-sign businesses only)
- Find the Servus branch or ATM closest to your current location

If you're registered for online banking, you already have access to mobile banking. Simply download the app for your device or visit servus.ca from your mobile phone and click Online Banking. Then log in with your online banking security credentials.
